ABOUT OLIVIA

- Born May 13, 2020, the daughter of Violeiro do Riomar x Destiny do Summerwind. Violeiro was a Brazilian National Champion. Destiny is out of Chanel de Miami, our best picada mare.
- She is scheduled for ABCCMM (Brazilian MM association) inspection and is registration in February 2025. She is registered with the USMMA, the American MM Association.
- Already started under saddle but still a novice. Olivia has a very active mind and would be best in a home that will put her to work - either performance or breeding.
- Color - A/A, E/e, nd1/nd1. 2 curiosity variants, endurance muscle type, 1 DMRT3 gene - "gait carrier", no genetic or health issues.

SW HOPES:

- Olivia will get started in a training program in the fall for her ABCCMM inspection and registration in February 2025.
- We'd like to have a foal or two (has to be a filly!) from her to retain at Summerwind.
- Our hope is to find a breeder to partner with us.
- However, for the right person, especially a younger person, we will consider selling her outright.

SW BREEDING

- Summerwind Marchadors tries to breed only when a foal is reserved, so there is an income stream rather than an expense stream. In a 50% ownership, often the 2 investors own 100% of the foal produced every other year, but you can also decide to own 50% of every foal every year.
- Our goal is to increase the diversity of the Marchador genetics and improve the quality of every pairing. Stallion pairing examples - but there are many!
 - Cervantes Vista da Serra, black picada stallion.
 - Jedi-Knight do Summerwind, black tobiano stallion.
 - Ingles do Porto Palmeira, buckskin stallion (imported frozen semen)
 - Atrevido do Porto Palmeira, bay tobiano stallion (imported frozen semen)
